Gratuitous Gore

Gratuitous gore refers to the depiction of excessive and unnecessary violence, bloodshed, or graphic content in various forms of media, such as movies, video games, or online platforms. It often involves the explicit portrayal of injuries, mutilation, or other violent acts for shock value or sensationalism.

Platforms and Policies:

- Many online platforms have policies against sharing or promoting gratuitous gore content. For example, X prohibits the sharing of images or videos that depict gratuitous gore due to concerns about the negative impact on individuals' well-being 1.
- However, there may be limited exceptions for gory media associated with newsworthy events.

Examples:

 In the horror genre, some movies or scenes are known for their overly gratuitous gore, where the violence

THE WORLD HEALTH ORGANISATION ARE LYING

With such dishonesty, it's time to leave the WHO

So the WHO are trying to blame "the c mate crisis" for the unprecedented level of excess deaths.

And according to the WHO it's not the toxic spike protein from the Covid injections causing increases in diseases like diabetes, cancer & respiratory. Ilness – but air poliution and extreme temperatures.!

twitter.com/DrTedros/statu...

This is disgraceful dishonesty from Tedros - not only is he covering up for the adverse events from the vaccines the he promoted - but he's falsely blaming "climate change" as part of the WHO's power grab under the r Global Pandemic Treaty

The truth is the number of deaths from air pollution is in decline is nice 1990 death rates have nearly haived - from 156 deaths per 100,000 down to 85.6 deaths per 100,000 in 2019, the exact opposite of Tedros's lies, ou world indate org/or point an

And deaths from extreme temperatures are also in decline - again the exact opposite of Tedros's lies

If you follow the peer-reviewed science, the facts are that cold weather kills many times more than heat.

And moderate warming over recent decades has reduced deaths from temperature extremes not increase them

the arcet.com/journals/lanpl

A study published in the Lancet concluded that between 2000/3 to 2016/19 that warmer temperatures caused 116,000 extraineat deaths, but avoided 238,000 deaths from extreme cold, therefore in net

THEY LIED AND CONTINUE TO LiE ABOUT EVERYTHING - and now they are trying to cover it up.

The Pfizer & Moderna Covid "vaccines" are gene therapies.

This is not some type of "conspiracy theory" - it is an admitted fact. And now they are trying to cover it up.

As under Australia's Gene Technology
Act 2000 if you are importing GMO into
Australia you need a licence and approval
from the Office of Gene Technology but this never happened for the Covid
injections.

Further, part of the propaganda to trick the world to line up to get injected, was to misled people into believing that these Covid injections were justified traditional vaccines and therefore could be trusted rather than tell the truth that they were a new novel technology, a form of gene So the WHO are trying to blame "the climate crisis" for the unprecedented level of excess deaths.

The head of a New Zealand political party has cited leaked documents while raising the alarm about the Austra asian country's soaring excess mortality rates.

Liz Gunn head of NZ Loyal, is warning that tens of thousands of the nation's population have died from the Covid injections

Gunn is one of few politicians in New Zealand who has spoken out about the number of excess deaths in the country of 5 million since the rollout of the Covid shots

A recent report revealed that, during a 49-week period in 2022, there were 5,285 excess deaths in New Zealand

The number is a 3,203 percent increase over the figures for 2020, the last year before the Covid shots were rolled out.

Gunn said she was contacted by a whistleblower who gave her leaked government documentation.

"The humber of deaths is usually less than the number of those suffering from ill effects of the Injections, then the extraporation of the numbers that have been injured and killed starts to become, frankly leye-watering." Gunn said

An investigation for the study, which was led by Gunn, found that every single person who received a Covid mRNA shot from one clinic died suddenly shortly after vaccination, within the same timeframe.

Gunn, a former TV host-turned-investigative reporter tracked down patients who had received Covid vaccinations from the same clinic in New Zealand.

Asarmingly, she traced at 30 patients who were vaccinated by the clinic on the same day and discovered that every single one of them had died around the same time.

Gurn published a video update about the findings and described New Zealand as "a crime scene."
